INTERESTING HOUSES

ALFRED F. PRIEST PREPARES PLANS FOR COUNTRY RESIDENCES IN VENTURA CO.

Alfred F. Priest of this city has prepared plans for a substantial country residence to be built on a ranch near Moorpark, Ventura county, for James Birkenshaw. It will contain twelve rooms and two bath rooms, also a cemented basement. The foundation will be of concrete and the exterior finish stucco for the first story and shingle above. There will be hardwood floors and the woodwork will be finished in white enamel.

Mr. Priest has also made the plans for a two-story frame and plaster residence which is to be built for C. E. Hawley on property he owns between Santa Paula and Ventura. It will be a dignified structure of English colonial style with a rear court and will contain eight handsomely finished rooms.

Plans for a residence of quite different style have also been prepared by Mr. Priest to be carried out at El Rio in Ventura county for Jacob Cohn. It will have a stucco exterior, clay tile coping and will contain seven rooms.

DEATH OF JOHN HODSON

PIONEER RESIDENT AND CIVIL WAR VETERAN SUCCUMBS TO PARALYTIC STROKE

Old residents familiar with the history of the city since early times learned with sincere sorrow of the death Saturday morning, at his home on North San Fernando Road, following a stroke of paralysis, of John Hodson, who has lived for thirty years or more on the ten acres he purchased way back in 1889. He and his wife, who is still living, constituted the Hodson family and although excellent neighbors and citizens they have passed quiet lives without taking any very active part in civic affairs. This was due in part to the deafness of the deceased caused by the explosion of a shell while he was a soldier in the Civil War. He was a native of Canada, but came to the United States many years ago and when the war broke out entered the Union Army and did his part to free the slaves. He was about eighty years of age.

THE MYSTERY CAR

E. J. JACKSON TO SPRING A SURPRISE WHEN NEW MODEL OVERLAND IS REVEALED

The Mystery Car about which there has been so much speculation in automobile circles appeared in Glendale today and attracted much attention, although the mystery has not yet been explained.

E. J. Jackson, the local Overland dealer, wore a proud smile as he drove about the city in the new Overland Four, although a box-like covering hid the car whose pleasing lines and graceful contour will not be revealed until October 20th.

Mr. Jackson's jubilant anticipation of demonstrating the new Overland Four to prospective automobile purchasers would lead the observer to believe the car is good to look at as well as perfect in action.

MISSIONARY FACTS

GIVEN FIRST HAND BY MISS DOERING TO YOUNG PEOPLE AT ADVENTIST CHURCH

A large and appreciative audience listened attentively and enjoyed to the fullest extent the talk given by Miss Bertha Doering, before the Young People's Society of the Seventh-Day Adventist Church Friday night.

The responsibility of every believer in Jesus Christ to enlighten others who are in darkness was emphasized. "There are still 100,000,000 in Africa who have no one to teach them of the love of Jesus. Whose fault is it? Is it yours—is it mine?" was asked.

When Mary saw Jesus after the resurrection, He told her to go tell the disciples. This command to tell others has held good all through the ages, yet 1900 years after that event we find millions untold.

An instance was cited of a lost lamb at the bottom of a steep precipice in the Alps of Switzerland. A man was let down on a rope by two others and the rescue effected. What if there had been no one to hold the rope? All cannot go down into dark Africa to brave its dangers

LIEUT. H. W. WEBB

MANY GATHER TO PAY LAST TRIBUTE OF RESPECT TO MEMORY OF DEAD AVIATOR

In the auditorium of the First Methodist Church of this city on Sunday afternoon under the auspices of Unity Lodge, No. 368, F. and A. M., with Master Roy W. Masters conducting the service, assisted by Rev. B. Dudley Snudden,—a brother Mason, solemn obsequies were held over the remains of the late Lieut. Henry W. Webb, former army aviator, who met his untimely end through the crashing to earth of his airplane on Tuesday last in Oregon. He was returning from forest patrol duty and was on his way to Mather Field to enter the Transcontinental Derby in which classic he had been assigned a pilot's position. According to the best information obtainable, his motor stopped through leakage. There was but one landing place and he endeavored to reach a tree which would break his fall, but his loss of speed made that impossible. His associates at the Mather Field, who best knew his skill, say if Lieutenant Webb could not maneuver to safety, no one could. He was but another of the many who have sacrificed their lives to perfect the art of flying still in its experimental stages. Not until fellow officers informed her did Mrs. Webb know that her husband had been assigned a place in the transcontinental flight and she feels that she would rather have him die as he did than in some remote wilderness where his plane might have fallen in the longer flight.

Amid a bower of roses and beautiful floral offerings of varied hues and fragrance, under the impressive rites

BOY BADLY HURT

HARRY BEEDE VICTIM OF COLLISION BETWEEN AUTO AND MOTORCYCLE

The few hours possession of a new Harley-Davidson motorcycle brought disaster to Harry Beede, aged 18, who resides at 1240 Dorothy Drive, on Friday last, when Mrs. Ella E. Gray, who lives at 448 Pioneer Drive, while driving west on Doran street, failed to see the rider coming north on Central avenue, in time to avoid a collision, was bumped into by the rider of the motorcycle.

The victim of the accident was taken to the Glendale Sanitarium where he was found to be suffering from a compound fracture of both bones of the leg, the tibia and fibula both being broken.

Mrs. Gray reported the accident immediately to the police station as unavoidable.

The accident will disable young Beede for some time.

BUTTERFLY DAY

GLENDALE YOUTHS AND MAIDENS WIELD THE NET FOR FILM PLAY

It was butterfly day "on the location" Sunday when in response to the advertisement of the Astra Film Company for live butterflies, both amateur and professional handlers of the net brought the results of their efforts to L. J. Gasnier, at the Lew Cody studios on Verdugo Road.

If any one imagines that it is an easy task to corral the elusive butterfly without injuring the captive they are greatly mistaken. Especially at this season of the year anyone who thinks he can go out and get a thousand or so before breakfast had better think again.

From all reports available it seems that Opal Peck captured 21 of these beautiful butterflies which will be used in the prologue of the new screen play, "The Butterfly Man," in which a thousand are required. Jack Wright brought in 18 and Edward Stockbridge 16, eight of which were of the "Monarch" brand, a species much desired by the management. The net which Edward used was constructed in such a practical manner that the property man rented it to use personally in a supplementing Sunday's catch. The prologue will not be filmed until they have secured a large number.

NEW HOUSE ON NORTH BRAND

Dan Carney, the contractor and builder, who resides at 1320 East Harvard street, has secured a building permit for an up-to-date bungalow which he will erect on a lot he owns at 800 North Brand. Work on it has not yet started, but will be begun in the near future.

PRESIDENT'S PHYSICIANS IGNORE RUMORS

MAKE NO DETAILED DIAGNOSIS OF CASE AS EXPECTED—SAY HIS CONDITION REMAINS THE SAME

(Special Service to Glendale Evening News)

WASHINGTON, October 13.—After the longest consultation they have yet held, the president's physicians issued a statement this afternoon saying: "The president's condition remains the same as for the past several days. His temperature (with the exception of one day), his pulse, respiration, heart action and blood pressure are normal and have been so since the onset of his illness."

Admiral Grayson said informally that the president continues to improve slowly and could, if he had to, sign measures and attend to other affairs, but his physicians will not permit him to abandon the rest cure and will resist any effort to have the president resume his duties.

It had been expected that his physicians would issue a detailed diagnosis following today's consultation but it was learned they decided to ignore all rumors and not to issue such a statement.

AIRPLANE RACERS AT CHICAGO

MAJOR BARTOLF, FIRST TO LEAVE WINDY CITY DEPARTED EASTWARD AT 7:31 THIS MORNING

(Special Service to Glendale Evening News)

CHICAGO, October 13.—Major Bartolf was the first transcontinental airplane racer to leave Chicago this morning. He started eastbound at 7:31 a. m. Later in the day the Martin bombing plane, west-bound arrived and Plane 22 arrived and departed also westbound. West-bound planes 10 and 7 arrived near noon.

TEST CASE ON WARTIME PROHIBITION

SUPREME COURT ADVANCES HEARING OF ACTION BROUGHT AGAINST STANDARD BREWING CO.

(Special Service to Glendale Evening News)

WASHINGTON, October 13.—The Supreme Court today advanced the hearing of the case of the Standard Brewing Company of Maryland which has been made a test case on war prohibition. The decision in this case is expected to determine the fate of two and seventy-five-hundredths per cent beer.

FINE RECORDS BY FLYERS

ACTUAL UNOFFICIAL FLYING TIME OF CAPTAIN SMITH FASTER THAN THAT OF LIEUT. MAYNARD

(Special Service to Glendale Evening News)

NEW YORK, October 13.—Capt. L. H. Smiith, the fourth transcontinental flyer arrived at Roosevelt field this morning at 10:50 o'clock. His actual unofficial flying time was twenty-four and a half hours which is nearly a half hour faster than the time of Lieut. Maynard.

SACRAMENTO, October 13.—Captain Drayton arrived at Mather field from Reno, Nevada this morning at 8:51. Orders were received to hold him here as the flying conditions were unfavorable for a landing at San Francisco on account of the heavy fog.

RETURN FLIGHT OF LIEUT. MAYNARD

WIFE OF "FLYING PARSON" TRIES TO DISSUADE HIM FROM HIS PURPOSE TO LEAVE TOMORROW

(Special Service to Glendale Evening News)

SAN FRANCISCO, October 13.—Following the receipt of word that the war department had changed the transcontinental air-flight rules so that flyers completing the first lap may start on the return trip any time between 48 and 96 hours after the completion of the first lap, Lieutenant Maynard, the flying parson, announced this afternoon that he would start his return flight tomorrow afternoon. He spent this morning at the Presidio tuning up his plane. Maynard received a telegram from his wife this morning urging him not to attempt a return flight but he said his plans had not been altered. Billy Sunday wired him congratulations.

GERMANY CHARGED WITH BAD FAITH

POWERS TO APPOINT COMMISSION TO SUPERVISE GERMAN WITHDRAWAL FROM BALTIC PROVINCES

LONDON, October 13.—The associated powers today forwarded a new note to Berlin charging that the German government had delayed deliberately the withdrawal of the forces under General Von der Goltz from the Baltic provinces. The note declared that unless Germany starts the withdrawal of these forces, the allies will maintain coercive measures and that Germany will be held fully responsible. The note said an allied commission will be named to superintend the German withdrawal.

Paris advices indicate that severe fighting between the Germans and the Letts in the Baltic region is continuing. Russian troops cooperating with the Germans have captured Yamburg, southwest of Petrograd. throughout Friday and Saturday the Russo-Germans heavily bombarded Riga forcing French and British destroyers from the harbor. The reports indicate but do not establish definitely that the fighting at Yamburg was of a most bloody character.

LOCAL ELKS RETURN

PROUD OF THE SHOWING MADE BY THEIR LODGE AT BIG SAN DIEGO CONVENTION

The one hundred and fifty or more members of the Glendale Elks' Lodge have returned from attendance on the great State Convention which was held at San Diego last week and are full of enthusiasm over the good time they had and of the fine showing made by their local organization. Twenty-four men of the drill team—the White Star Patrol, headed by Captain W. C. Wattles, were there, also the officers of the lodge beginning with Cameron Thom, Exalted Ruler Dr. R. E. Chase, Esteemed Leading Knight, John Fanset, Esteemed Loyal Knight, A. F. Priest, Esteemed Lecturing Knight, Chaplain, James McBryde.

Five drill teams competed for the cup trophy and so close was the competition there were but 1½ points difference between the highest and the lowest. It was awarded to the Pasadena team, and the award is easily explained when it is understood that the State Committee had ruled that a certain amount of military maneuvers should be included. After that ruling had been made it was too late for the necessary training to be given the White Star men along that line, so Captain Wattles contented himself with drill which would make his team letter perfect in the fancy maneuvers in which they had been disciplined, knowing that the lack of the military maneuvers would take eleven points from the score. Their work inspired the greatest enthusiasm, however, and in all respects except the military maneuvers they are said to have surpassed other teams. The judging was done by four officers of the naval station at San Diego and four rigid inspections were made by the officers delegated to place the award. Lodge members feel well pleased with the record they made.

The jinks committee headed by Lou Sherman and Arthur Dibbern put on a big number at the entertainment given at the Spreckles Theatre which was acknowledged to be the finest one on the program. It aroused the greatest enthusiasm on the part of the audience, the applause being long continued. It consisted chiefly of clever songs by a Los Angeles artist who has figured in several programs given by the local lodge at its club house.

The Glendale lodge was also honored by the election of Past Exalted Ruler Albert Pearce to the office of first vice-president of the Elks' State Reunion for the ensuing year.

Y. M. C. A. CAMPAIGN

FIFTY PER CENT OF DISTRICT ALLOTMENT ALREADY SECURED BY COMMITTEE

An even thirty workers for the Y. M. C. A. campaign met yesterday at the White Inn for dinner, just before going out for the opening of the three-day campaign. The following team captains reported for duty: A. G. Lindley, Dr. W. E. Edmonds, J. W. Stauffacher, H. L. Howe, T. A. Wright, Geo. W. Tyrrell and W. D. Root.

Only a small number of people could be seen yesterday, but the thirty workers are unanimous in recording a cordial reception on the part of those interviewed. Contributions totaling $938 were reported officially signed up by workers and special friends, before the campaign opened and the amount now reported officially is $1400 or just half of the amount being asked of Glendale toward the district budget. The campaign is not being conducted on the "house to house" basis, but each worker has individual cards of the persons he is to see. Campaign headquarters are at the store of Ezra Parker where workers will be on duty and where interested persons may receive printed matter and further information.

BIRTHDAY LUNCHEON

On Thursday Mr. and Mrs. O. F. Calkins of 319 West Windsor Road entertained at a delightful luncheon to celebrate the birthday of Mr. Calkins' mother. The rooms were beautifully decorated with flowers, while the table presented a very attractive appearance with a birthday cake decorated with candles and a centerpiece of dahlias and ferns.

Those present besides Mrs. J. M. Calkins, the guest of honor, were Mesdames Lucas, West, Munger, Whitaker, Tisdale and Taylor.

WEATHER FORECAST: Partly cloudy with little change of temperature.

ATTEMPTED MURDER

H. E. LOWE OF THIS CITY AND CAR CARPENTER VICTIMS OF DEVILISH PLOT

Last Saturday came to light a deliberate attempt at murder which for devilish ingenuity could hardly be surpassed and which can only be charged to some unknown sympathizer in the strike of Pacific Electric conductors and motormen. It goes beyond sabotage and shows to what lengths of vindictiveness a certain element in organized labor will go when thwarted in attempts to force acceptance of its demands.

Saturday night either at the end of the Glendale line or in the Pacific Electric yards in Los Angeles, some miscreant separated electric current wires from a car heater and attached them to the iron railing of a seat. Sunday morning when H. E. Lowe, of this city, son of Judge Lowe, who is yard foreman of the P. E., accompanied by a carpenter, went in to inspect the car before it went out on its regular run, both men chanced to place their hands simultaneously on the railing thus connected with the electric current and received the shock of 550 volts. The carpenter wore gloves which protected his hands but got the effect of the charge internally. He was unconscious for a couple of hours. Both of Mr. Lowe's hands, which were bare, were very severely burned and he also received the effects of the shock in his teeth and ear drums and in his tongue which was so thick for a while that he could not talk. Hearing the fall of the two men, other P. E. men came to their assistance and conveyed them to first aid hospitals. Surgeons who attended them declared that had the car been wet as cars frequently are after having been hosed out by the cleaners, the two men would undoubtedly have been killed.

The only theory by which the deed has been explained attributes it to an effort to bring serious injury to car patrons and damage suits against the Pacific Electric Company. Rigid inspection will hereafter be made to insure the safety of both employes and the public.

OWENS RIVER WATER

LOS ANGELES CITY AUGMENTING SUPPLY BY SINKING FORTY WELLS

Glendale citizens who have sometimes questioned the inexhaustibility of the Owens River water supply when campaigns for the annexation of this city to Los Angeles have been on and Owens River water has been held out as an inducement, will be interested in the announcement that the Los Angeles Water Department has begun to drill forty wells in the Independence region of the Owens Valley in an effort to forestall possible water shortage. Eighteen wells were sunk during the construction of the aqueduct and three more in 1918. A sufficient number of well rigs with a double shift crew each have been engaged to complete the forty wells in four months.

"A DOUBLE CHALLENGE"

LOYALTY PUT FORTH SUMMONS AT THE FIRST PRESBYTERIAN CHURCH

"I will say to the north, give up: and to the south, keep not back." This was the text of a sermon preached at the Presbyterian Church by Rev. Edmonds on Sunday morning, from which the following are a few extracts:

In the text is a great message to the unsaved. We all recognize as Presbyterians that this is loyalty month. What is the objective of these days we call loyalty days? What kind of a motor have you? Where do you get the power? What are your dynamics? If there is any machinery in this church not under the direction of the Holy Spirit, the quicker it is out the better.

"I will say to the north: Give up. The first thing we are called upon to give up is our prejudices. The second is to give up self-righteousness, a holier than thou condition; the third is give up your sins. Let him that is without sin cast the first stone; for all have sinned and come short of the glory of God. Fourth, give up our procrastination. Whatsoever thy hand findeth to do do it with thy might. Behold now is the accepted time, now is the day of salvation. Do it now.

Now notice the other side of the text, "Keep not back." Has there

LEAGUE OF MONARCHIES

After all the President's "passion for democracy," after all his declarations that the United States went to war for democracy, after all his assurances that this is a league of democracies, what do you think of the democratic character of some of the nations that he wishes to have vote in the league equal with that of the United States? Here is a quotation from the constitution of Japan:

"The empire of Japan shall be reigned over and governed by a line of emperors unbroken for ages eternal.'

The Japenese constitution makes the Emperor supreme head of the army and navy, with power to declare war, make peace, and conclude treaties. He chooses the members of the House of Peers, can prorogue the House of Representatives, appoints all Government employes and fixes their conmpensation. No law can become effective without his approval. His veto cannot be over-ridden.

In Italy the throne is hereditary, the King alone approves and promulgates law, appoints the members of the Senate, is supreme head of the state, declares war, makes peace, and concludes treaties, without consulting the legislative body. Any measure rejected by the House, the Senate, or the King, can not be presented again at the same session. The King's veto cannot be overridden by the legislative body.

In Canada, which is to have a vote equal with the United States in the League assembly, the Governor-General is chosen by the King of England, he chooses the Upper House of Parliament, whose members must have property of the value of not less than $4,000. Any law passed by the Dominion parliament can be vetoed by the Governor-General and, even if approved by him, may be nullified within two years by the King of England. Canada is not as near self-governing as is the State of New York, and has not as large a population. Great Britian would be no more entitled to an additional vote in the league in the name of Canada than the United States would be in the name of New York.

In Australia both Houses are elective but the Governor-General is appointed by the King of England with veto power, and any act may be annulled by the King of England within one year from the time of its enactment.

It is apparent from this summary that in neither Japan nor Italy does a real democracy exist either in form or fact. In Canada and Australia democracies exist in fact but not in law.

It is also apparent, from recent addresses and acts of the President, that Mr. Wilson looks upon the constitutions of these countries as establishing ideal democracies. He believes the chief executive should have the power to dictate laws, declare war, conclude peace, and make treaties without consultation with the legislative body. His action in several senatorial elections proves that he believes the chief executive should choose the members of the Upper House of Congress.—Whiiteside Sentinel, Morrison, Ill.

"KEEPING EVERLASTING AT IT"

Nobody can be successful in any endeavor without perseverance. Whatever other attributes for success the aspirant has, failure is inevitable, unless accompanied by perseverance. Happily this quality is readily acquired. If you want a thing hard enough to bend every effort toward getting it, and keep on wanting and working, you'll get it. Many men fail because they don't hang on long enough. Just as the door of success begins to open they grow discouraged and throw up the sponge.

Perseverance means sticking to a thing till you accomplish your aim. Perseverance must be practiced continuously. Almost anybody can persevere for a month, or year, or when there are indications that things are coming his way, but it takes the heroic soul, who earns, and eventually acquires success, to keep on struggling in the face of one discouragement and setback after another. It is the man who won't be convinced that things can't be done who actually does them. While every one is saying: "Oh, that never can be done; anybody knows that's impossible"; the persevering man becomes more dogged, and asserts: "I'm going to do it if it takes till doomsday." It usually doesn't take as long as that, though sometimes it takes a lifetime.

Perseverance alone will not assure success, however unless intelligently directed. You can do nothing contrary to natural law, no matter how persevering you are. You couldn't induce an ant to spin a web, if you tried forever because the laws of nature are unalterable. But if your ambitions are in harmony with natural law, you may be certain that intelligent perseverance will bring your heart's desire.—Exchange.

ANNOUNCEMENTS

CHARGE FOR ANNOUNCEMENTS

The Glendale Evening News will charge for all announcements ordered published in its columns. Notices of clubs, schools, churches, society committees and business concerns will be comprised in the class of pay announcements.

The charge will be 50 cents minimum for eight lines, heading counted as two lines, six words to the line. Additional lines, five cents per line, all payable in advance when organization seeking publicity has not arranged for monthly settlement of accounts.

This charge is being made necessary to make it possible to increase the wages of the printers who are the most poorly paid tradesmen in the world at present.

Yours for Systematized Business,
A. T. COWAN, Pub.

CHAMBER OF COMMERCE MEETING

There will be a meeting of the Glendale Chamber of Commerce at the City Hall, Tuesday evening, Oct. 14th, at 8 o'clock. At this meeting steps will be taken to elect new officers and transact such other business as may be permitted under the rules of the Constitution of the Association.

A. T.COWAN,President.

TUESDAY CLUB MEETING

"President's Day" will open the year's program of the Tuesday Afternoon Club tomorrow at the Masonic Temple at 2:30 p. m. The first fifteen minutes will be devoted to a reception by the Executive Board and the program will include an address by the president and violin numbers by Marian Hobbs Higgins. Refreshments will be served during a social hour.

The monthly report of arrests at Santa Barbara shows that a great variety of trades and professions were represented in the ones pinched, the only notable exception seeming to be newspaper men. Whether the editors have a special providence guiding their paths, or are merely just more upright and virtuous than common folks, we do not know, but we do know that statistics in every state show that less newspaper men get behind the bars than any other profession. Take it or leave it, as you please, but if you don't believe it, all the better, for maybe then you'll look it up and believe it.

In speaking of the police chief at Santa Barbara, the Morning Press there spelled "chief" with a "t" instead of a "c" by mistake, and the editor is still trying to convince the chief that it would be funny if he could only see it that way.

Backward, turn backward, O Time in your flight, on the 26th of October, one hour in the night, and then we'll be back on a sensible time basis again, thank goodness.

Personals

Miss Iva Hunter, who is vice-principal of the Beaumont Schools, spent the week-end in Glendale, visiting her father, J. M. Hunter.

Mrs. Frances H. Nichols has leased her home at 223 North Adams St. and will spend the winter in town with her daughter, Mrs. B. Booth, 648 West 41st Drive.

Miss Marjorie Duncan was the week-end guest of Mrs. Lewis Leppelman on Lorraine street. Miss Duncan at present has a very successful class in piano at Lankershim.

Robert Robertson and family who have recently come to Glendale from British Columbia have leased furnished, the home of Mrs. F. H. Nichols on Adams street.

Miss Nellie Rourke of Los Angeles was a guest Saturday of Mrs. Maude S. Goewey at her home, 222 North Belmont street. Miss Rourke is from Omaha, Nebr., Mrs. Goewey's home city, but at present is with the Pacific Mutual in Los Angeles.

Mrs. Boyer and her daughters, Miss Edna and Miss Sarah Boyer, who have been visiting Mrs. Boyer's sister, Mrs. C. D. Hellyer, 365 Milford street, for the past two months, left Friday for their home in Chicago.

Professor and Mrs. Elmer Merrill, who have been the guests of Mrs. Merrill's mother, Mrs. M. Z. Valentine, 2025 Kenneth Road, for the past summer, have returned to Chicago, where Prof. Merrill is an instructor in Latin.

La Canada school trustees are receiving bids for the construction of a concrete ditch with rock and cement bottom, about 575 feet in length, also for 354 linear feet of concrete curbing and for a concrete bridge in connection with school property.

The Stewart Fruit Company of San Fernando has just let a contract for the erection of a fruit packing house 50x60 of one-story and basement. The exterior walls will be of hollow tile. This is an improvement of value to the fruit industry of the San Fernando Valley.

Architect C. C. Rittenhouse, of this city, has prepared the plans which will be used in the construction of a commercial garage which is being built for H. S. Miller at 1140 South Figueroa street, Los Angeles. It will be of very substantial construction and up-to-date in all its appointments.

Mr. and Mrs. W. E. Edmonds and Mr. and Mrs. R. A. Peterson will represent the local Presbyterian Church at the Synod at San Francisco, Oct. 16-20. They will make the trip by boat leaving this (Monday) afternoon. Mr. and Mrs. Edmonds will take a brief vacation in the north after the Synod meeting, returning about November 1st.

Mrs. Frank Nell, 1146 Stanley avenue, who, on account of the illness of her husband, is moving to the city, has certainly raised some prize chickens this summer. Four youngsters weighed 4¼ 4¾, 5 and 5½, respectively, a total of 19½ lbs. netted her at 35c a pound nearly seven dollars. Some chickens.

The condition of Wesley Bullis, who was taken to the Glendale Sanitarium on Friday last, with violent hemorrhage of the stomach, is reported as somewhat better this (Monday) morning. His condition however is serious and he is not yet considered out of danger. Mrs. Bullis is constantly at his bedside, a substitute having taken her place in the Acacia Street School.

COLONIAL HOUSE

The attractive colonial house which the Bentley-Schoeneman Company is building at 411 West Elk will be completed in two or three weeks, the contractors say. It is being erected for J. Roger Bentley and will contain five rooms including a nice living room, breakfast room, kitchen and two bed rooms. The floors will be of hard wood and woodwork will be finished in white enamel.

NEWS OF NICHOLS FAMILY

Word has been received by Mrs. A. P. Knight, of 1305 East California, from Mrs. B. H. Nichols, formerly of Adams street, informing her that the Nichols family had removed from Tacoma, where they have been since the closing of the war released their sons from service, and are now located at National, Washington. This is a lumber town about sixty miles from Tacoma, near Glacier Park.

Frederic Nichols is with his people, but Benjamin is completing his course at the State University at Corvallis, Oregon.

Mrs. W. C. Wickersham, formerly of Glendale, but later of Alhambra, has gone north to visit her twin sons who are also attending school at Corvallis and will visit Mrs. Nichols at National.

MASONIC NOTICE

Unity Lodge, No. 368, F. and A. M., will confer the First Degree Tuesday evening, October 14th, at 7:30 p. m. Masonic visitors welcome.

ROY W. MASTERS, W. M.
A. W. TOWER, Sec.

LOCAL CHAIRMAN FOR FOREIGN RELIEF

Mrs. H. E. Bartlett, who has been identified with the local chapter of the American Red Cross ever since its inception in our community has been made Glendale chairman of the California Committee for Relief in Serbia and Northern France.

This committee contemplates relief of a more permanent character than that which usually is ascribed to the Red Cross whose work in times of peace is largely the emergencies arising from fire, famine or flood. It is planned to furnish one "Supplementary" meal to as many children in the newly-liberated countries of Europe as the funds available make possible. One dollar will provide the "Supplementary Meal" for one child for one month. Cards for signing will be furnished to contributors to this fund. There are no overhead expenses as these are contributed by Mrs. Wm. H. Crocker, Treasurer of the Committee. A meal consisting of sweet cocoa and milk with a large slice of bread costs 4.46 cents, pea soup with pork and a large slice of bread 3.32 cents, boiled rice and milk 4.80 cents, rice soup and pork and a large slice of bread 3.32 cents.

RECONTSRUCTION AT DE MILLE RANCH

Confirmation has been received of the report that Cecil B. de Mille, the celebrated movie star, has let a contract on a cost-plus plan to a Los Angeles concern for buildings to replace those burned on his mountain ranch in the Tujunga Canyon at an estimated cost of $50,000.

CONDITIONS IN ARMENIA AND SYRIA

A report from the National Committee for Armenian-Syrian Relief states:

"As a result of the generous outpouring of money by the American people, four great ships laden with food, medicine and relief supplies; also six contingents of doctors, nurses and relief workers were dispatched to the Near East. Conditions in these countries remain very bad, indeed. We in America can hardly realize that eight months after the armistice, people are still starving. We have recently received a cablegram from Mr. Hoover informing us that in spite of everything that can be done, two hundred thousand will die of starvation in the Caucasus within the next few months, but that there are five hundred thousand who may be saved if relief is sent immediately.

One of our workers recently returned, reports Colonel House as saying that America has never had a greater opportunity than she now enjoys in caring for these four hundred thousand children and building in the heart of Asia a model republic, the influence of which may permeate throughout that continent. It is not going to be a brief task to make this nation of children self-supporting and independent and to instill in them idealism of Government and life, but it is a task that is decidedly worth while."

A San Bernardino boy built the smallest aeroplane capable of carrying a human passenger, and calls it "Poison," because one drop from it would be a sure cure for existence.

The civil service commission is advertising for a healthy young man to work in the postoffice at Hemet four hours each day at forty cents an hour. At that rate of income nowadays he wouldn't be a healthy young man very long.

Advertise it, or advertise for it in the Evening News.

RICHARDSON DINNER

MANY GUESTS ENTERTAINED AT HOSPITABLE HOME HOSTESS IS SO SOON TO VACATE

Another of the series of those delightful functions which Mrs. Ella W. Richardson is giving, preparatory to vacating the beautiful home which she has occupied for some years, was the community dinner on Sunday. The group which enjoyed Mrs. Richardson's hospitality was composed of well-known Glendale people, a number of whom are most talented and in the musical which followed the dinner, presented many pleasing numbers. Another group will be entertained next Sunday.

Following is the list of invited guests: Messrs. and Mesdames Norton C. Wells, A. T. Cares, W. C. Richardson, H. L. Baker, Sidney Browne, S. C. Packer, Alexander Mitchell, T. C. Barton, H. E. Bartlett, E. L. Parks, R. H. Whitten, John Smalley, John A Logan, R. M. Yost, Henry Paschell, C. D. Hellyer, A. R. Kilgore, D. G. Crofton, J. R. Wernette, E. B. Ellias, E G. Ball, F. L. Church, Mrs. Herman West, Miss Orcutt and Miss L D. Mason of Los Angeles, and Mrs. Linn of Glendale.

BOY SCOUTS CAMP

SCOUT MASTER BLANFORD ACCOMPANIES TROOP 4 TO MALIBU CANYON GATE

Troop 4, Glendale Boy Scouts, left Friday afternoon on a camping trip to Malibu Gate, making the journey in the Red Cross truck which they rented for the purpose. They made their camp upon the beach. After having supper Albert Blanford, their Scout Master set a guard for the night so no intruders would disturb them. Corporals of the Guard were Senior Patrol Leader Robert Burns and Patrol Leader Harvey Gillette. They were not bothered much during the night, although some of the boys tried to slip out of guard lines. The Scout Master and a couple of scouts took Walter Krukow on a snipe hunt.

Saturday all the scouts were up at reveille then had breakfast and cleared up the Camp. After that they had a swim. Howard Bennett took his first-class swimming test and Samuel Tupper took his tenderfoot test. They then had dinner, loaded up the truck and drove down to Venice where they found plenty of amusement for two hours. The home run from there was made in safety and all the boys voted it was worth the money and that they had enjoyed themselves very much. They expect to go on a bicycle hike in about two weeks.

HARVEY GILLETE.

LIEUT. H. W. WEBB

(Continued from Page 1)

of the Masonic Order was laid to rest one of Glendale's most promising and deeply-loved sons, no more to wield what was once a will, a man strong in character and ever helpful to his fellowmen.

Rev. Snudden, formerly pastor of the church in which the services were held and an intimate friend of the deceased, commented in tender language on the high ideals and heroic "inner-man" of the lamented friend he had known and loved so well. From the many telegrams of condolence received by Mrs. Webb from brother officers of her husband, Mr. Snudden deemed it fitting to quote several expressions of admiration and respect, including the following from Lieut. Webb's commanding officer at Mather Field:

"All of us feel his loss very deeply for he was one of our best liked pilots at this field and one of the most skillful. May it be remembered to his credit that he died while endeavoring to save the life of his passenger after his motor had stopped while in the air, and from latest advices from Medford hospital he succeeded."

Interment was at Forest Lawn Memorial Park with short services at the grave while several of his more intimate fellow officers hovered above in their planes from which they dropped their last floral tributes to their departed comrade.

"A DOUBLE CHALLENGE"

(Continued from Page 1)

been a great call to service in the Lord Jesus Christ? Keep not back. Give God a square deal. Keep not back in the matter of church attendance. There is too much playing fast and loose with the things of the church by the slackers who put the church last instead of first on their programs. Keep not back in the matter of obedience to the Gospel call. It is the function of the church to preach the gospel. There is a social side to every man as well as a spiritual side.

Keep not back from the mercy seat. The General Assembly calls for two hundred and fifty thousand family altars. Keep not back in the matter of definite service for the Lord Jesus Christ. They are asking for four thousand volunteers for the ministry. Do we show our boys and young men that the highest calling is the ministry, and give our daughters a vision of what it means to be a missionary? Some have to stay at home. God doesn't want us all ministers and missionaries, but don't keep anybody back from the place where God wants them to be. There is a call for thirty-five hundred volunteers for full time service. Keep not back. Give property, time, heart, influence, service, honor and blessing to God. Keep not back.

Preceding the sermon the officers of the Young People's Intermediate Christian Endeavor Societies were installed; also Mr. Anderson, State Secretary of the Y. M. C. A., spoke of the "Y" work to be carried on in Glendale. Mrs. Fannie Marple Retts gave two solos at the service, and the pastor spoke briefly of his trip to Synod, Oct. 16th to 20th in San Francisco, after which he will take a few days of much-needed vacation.

The amount of ice used by the Pacific Fruit Express in shipping perishables out of California this year is 63 per cent above that of last year.

Movement of grapes in California is already 2400 cars ahead of last year.

MISSIONARY FACTS

(Continued from Page 1)

but some are willing to go as missionaries if others will hold the ropes on the home shores.

From an expression taken, the entire audience felt the burden and desire to help in this foreign missionary work—to hold the ropes while others went to rescue the perishing.

Miss Doering told of the degradation of the African wives who are abject slaves to their husbands performing all the hard work and being cruelly treated beside. The men consider women merely chattels—worth "so many pigs." What a contrast to the recognized status of the American woman, yet these African wives and mothers are just as capable of mental and physical suffering as their white sisters.

A pitiful story of a young wife being hung up by the thumb until the body's weight tore the thumb from the hand was told to show the result of a slight resistance to the "manly" authority of an African husband.

Is it not time the love of Jesus was being implanted in the savage breast?

Some must go and some must support the work. It takes money to make the gospel go 'round the earth.

Several years were spent by Miss Doering in Lapland, but the extreme cold of that northern clime undermined the health of this fair-haired missionary and she was obliged to seek a more genial climate than that afforded by the land of the midnight sun.

Many instances of miraculous answers to prayers were given from her own experience. Though speaking broken English, Miss Doering was well understood by her audience.

The spirit of unselfish love and devotion shines forth from the sweet face at this faithful missionary to the Dark Continent.

The Young People's Society of Missionary Volunteers has set a goal ta $1,000.00 for Africa for 1919. A philanthropic friend has promised to donate $500.00 if the young people will raise the other $500.00. A good beginning has been made and nearly $50.00 was added to it Friday night. At the next meeting a program on Africa will be given by the young people.

THE GOODYEAR COTTON MILL

A further ernest of its intentions with regard to Southern California has been given by the Goodyear Tire & Rubber Company in the securing of a permit for the preliminary construction work on the cotton mill it is to erect at Ascot Park. It is reported that the foundation will cost $15,000.

One comical afterclap of the rain was in Crombie Allen's paper. In the exuberance of his thank ulness, because the rain had put out the forest fires that were destroying the water sheds, Crombie had a lot of catch lines set up to run on different pages of his paper next day. "Let us be thankful for the rain." By mistake one of these followed immediately after an article telling of the escape of a burglar because the rain had washed away all traces of his footsteps, and then came the cheerful little catch line, "Let us be thankful for the rain." And then Crombie wondered why the man whose house was burglarized passed him with such a glassy stare next day.

Do you have a crow to pick?
Get the editor to do it.
Do you want to make a kick,
And you're half a raid you'll rue it?
Do you want to knife a foe
Over some one's shoulder?
Or a nasty slur you'd throw
At some brave opinion moulder?
Do you want a law repealed,
Or some office holder roasted?
Or a rival's failure sealed
Through some dereliction posted ?
Who should do it? Can you guess?
You might suffer trouble through it.
It might hurt your business.
Get the editor to do it.

We call that big rain the Pomona rain because the people of Pomona claim they brought it by praying for it. And they weren't a bit selfish either, as it rained all over Southern California.

That big "P" on the side of the mountain above Pomona can stand for Prayer now, since they brought the big rain that way.

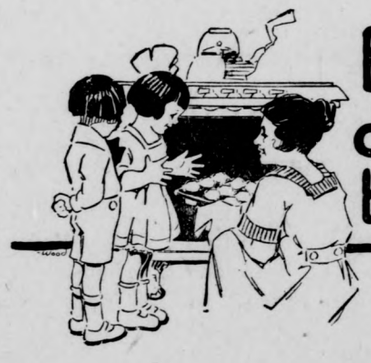
Hermosa Beach has a chance to get a glass factory, if too many rocks are not thrown at it.

BELGIAN BELLS ARE SAFE

Lovers of bell music will be glad to hear that the famous carillons at Mechlin and Bruges were not destroyed by the Germans. They were actually marked for destruction—to supply the Boche with materials for making munitions— but the German army had become a "salted slug," to use a soldier's picturesque similitude, before the act of vandalism could be carried out.

Joseph Denyn has actually beeen playing on his beloved Hemony bells, and one can imagine the delight with which the people of Mechlin once more heard the greatest of carilloneurs displaying his enraptured virtuosity in a clear sky. You get a wonderful and unwonted view from St. Rombold's stupendous tower in these days of a still imperfect peace, for the tall chimneys of the Belgian factories are now smokeless and the air is so clear that you can surmise, even if your eye cannot reach,the edged glimmer of the sea on the far blue horizon.

But Belgium has no love of idleness, and everybody will be glad when the dark, fantastical smoke blossoms are seen once more on their straight stalks—to sway and fluctuate to the far-flung music of the historic bells cast in a by-gone century by theStradivarius of bell founders.—Living Age.



Biscuits that delight the Children

The radiant smile of childhood's appreciation glows on the faces of rosy-cheeked boys and girls when they see mother open the oven and take out fluffy light biscuits baked of "BESGRADE" Flour.

THE SIMPLY AWFUL PRICE OF CLOTHES

By MARGARET ROHE
(Written for the United Press)

I care not if potatoes cost
A figure fiercely high
That butter, beef and other foods
Most folks can scarcely buy
For I Must diet anyway.
With me the vital issue
Is rolling, rubbing, starving off
Excessive fatty tissue
But when it comes to things to wear
Believe me then I sure should care
It's got me worried, goodness knows,
The simply awful price of clothes!

NEW YORK, Oct. 13.—"My dear, that coat is perfect on you;" "Dearie, that hat was just made for your eyes;" "My dear, this suit is just your style"—thus do the less haughty sales ladies affectionately foist their wares on guileless shoppers.

Little Harold, that precocious 1919 model child, on an enforced shopping tour with his maternal parent, lost not one of these endearing appelations.

"Mother," he demanded sapiently, "do they all dear you because everything's dear now?"

And thus you see the high cost of clothing stands convicted out of the mouths of babes.

Positively it would be tragic if it were not so ridiculous—the price tags dangling from this season's coats and frocks and suits.

Do you remember in the good old days how a fifty-dollar bill was considered quite some outlay and the gown or suit it purchased was of excellent material, lines and style? What fifty dollars will buy today looks like something le chat emportait chez-il.

Sixty-nine, seventy-five and eighty dollars are average prices for conservative little dresses of serge, tricotine, gabardine, satin, taffeta, Georgette or velveteen. Anything the least out of the ordinary, exclusive or Frenchy immediately leaps into the hundred class and even trotteurs of cloth, be they the least bit original and distinctive, range from $110 to $125 and $150 with the easy speed of an express elevator going up.

As for suits, without exaggeration, even in shoddy materials and cheapest grade furs, there are no fur-trimmed suits under a hundred dollars. When they are of peach-bloom, duvedelyne and others of the exquisite new materials with beaver, mole, nutria or squirrel trimmings range from $250 to $450 with the greatest of ease and abandon.

You can pick out a sort of rough and ready sport coat for around $75 or $80, but let anything in evora, duvetyn or casimeretine swathe you round your figure and even though it isn't of the fur-bearing species in round figures it will bring around one hundred and fifty round dollars. The beautiful befurred models of newest rich weaves belong to the exclusive four hundred, to judge by their price tags and with shoes soaring to fifteen and twenty dollars. What's worse we can't even afford to kick about it for fear of wearing out precious shoe leather.

The strange part of it all is that never have fabrics and furs and folde-lols been more lavishly and extravagantly exquisite than right this minute. The wonderful Lyons velvets brocaded in metal, the metallic tissues and brocades, the velvets, duvedelynes and peltrys smack of the glories of the renaissance the same time they take a wallop at your bank roll.

Somehow or other I can't quite see how the league of nations can successfully put over its equality for all nations as long as the high cost of clothing means so little to the change purse of a Hottentot and so much to the pocketbook of an American.

The Lompoc Record tells of a million dollar road bond election up there being lost by only thirty-six votes, because a large number of people in favor of the bonds forgot to vote. That's one crop that never fails,—the late brothers who favor improvements but always forget to vote. They are just as useless to a cause as if they didn't exist, and often are enemies of the cause, because the plans of a campaign are often laid depending upon them to do things which they fail to do because they forget. St. Peter may be lenient with the well-meaning people who are in favor of better conditions and better government, but always forget to help when the time comes. But to even things up he ought to keep them waiting outside the pearly gates for about eleven and a half million years on the plea that he forgot to reserve seats for him.

The first appearance this year of the annual fairy tale about grass hoppers raining down from the clouds during a rain, was at Redlands during the recent Pomona rain. The early appearance of the tale this year is due, scientists think, to the fact that the first rain came early.

Calexico is planning to start a tent city, to accommodate the new residents who can't find houses to rent and can't afford to build. In case of a cold winter, therefore, the suffering down there maye be intents.

Pasadena young men have organized a bicycle club and had their first club run into the country the other day. Papers of 1890 to 1895 please copy.

A woman arrested for speeding down Fair Oaks avenue in South Pasadena was fined double in court for exceeding the speed limit—once for driving too fast on the street, and once for talking back too fast to the judge, says the South Pasadena Record.

Auto thieves at Long Beach are getting positively disrespectful. One of them stole an auto parked right in front of the police station.

The Omaha scientist who is trying to communicate with Mars ought to hurry along with it, while he has a lot to tell.

California's wheat harvest at 14,000,000 bushels, is double that of last year and largest since 1900.

California will yield nearly one-sixth of the nation's barley crop this year.
